

Writing Assignment #2

Proposal for Service Learning Option

To be appropriate for Service Learning credit, your project must fulfill these criteria:

- The service project must support and inform the theories, ideas, and skills learned in the class- i.e., the project must include aspects of rhetoric in writing and/or oral presentation.
- Communities in need must be served by your project.

Your proposal must be in a list format and must include the following headings and information:

- **Organization:** Name of the non-profit organization you will work for.
- **Contact:** Name of your contact person and his/her phone number and email address.
- **What I'll Do:** Details of what you will do for the non-profit organization (your contribution should be 2-3/hours per week for 10 weeks).
- **Schedule:** When will you do what for the non-profit? Include here the date you will start and finish your writing for the non-profit (or your 4th essay that examines rhetoric in the non-profit).
- **Connection to class:** This is a crucial section, for you must convince me (e.g., with details) that what you will do relates directly to this class and rhetoric.
